

**ORDINANCE NUMBER 1114**

**AN ORDINANCE OF THE CITY COUNCIL, CITY OF PERRIS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA, AUTHORIZING PARTICIPATION IN THE WESTERN RIVERSIDE COUNTY TRANSPORTATION UNIFORM MITIGATION FEE PROGRAM BY ASSESSING DEVELOPMENT FEE CITY WIDE TO ASSIST WITH THE FINANCING OF A REGIONAL ROADWAY SYSTEM FOR THE BENEFIT OF WESTERN RIVERSIDE COUNTY (ORDINANCE AMENDMENT 03-0058)**

**THE CITY COUNCIL OF THE CITY OF PERRIS ORDAINS AS FOLLOWS:**

**Section 1: Title**

This Ordinance shall be known as the "Transportation Uniform Mitigation Fee Program Ordinance."

**Section 2: Findings**

A. The City Council has been informed and advised, and hereby finds, that future development within Western Riverside County and the cities therein will result in traffic volumes exceeding the capacity of the Regional System of Highways and Arterials (the "Regional System") as it presently exists. A map depicting the boundaries of Western Riverside County and the Regional System is attached hereto as Exhibit "A" and made a part hereof.

B. The City Council has been further informed and advised, and hereby finds, that if the capacity of the Regional System is not enlarged, the result will be substantial traffic congestion in all parts of Western Riverside County, with unacceptable levels of service throughout Western Riverside County by 2025.

C. The City Council has been further informed and advised, and hereby finds, that funds will be inadequate to construct the Regional System needed to avoid the unacceptable levels of traffic congestion and related adverse impacts. Absent a Transportation Uniform Mitigation Fee ("TUMF"), existing and known future funding sources will be inadequate to provide the necessary improvements to the Regional System, resulting in an unacceptably high level of traffic congestion within and around Western Riverside County.

D. The City is a Member Agency of the Western Riverside Council of Governments ("WRCOG"), a joint powers agency consisting of the County of Riverside and the fourteen cities situated in Western Riverside County. Acting in concert, the Member Agencies of WRCOG developed a plan whereby the shortfall in funds needed to expand the capacity of the Regional System could be made up in part by a Transportation Uniform Mitigation Fee on future residential and non-residential development. As a Member Agency of WRCOG, the City participated in the preparation of that certain "Western Riverside County Transportation Uniform Mitigation Fee Nexus Study", dated October 18, 2002, prepared pursuant to California Government Code, Section 66000 et seq., the Mitigation Fee Act (the "Nexus Study").

E. The City Council finds that future development within the County and Cities will substantially adversely affect the Regional System, and that unless such development contributes to the cost of improving the Regional System, the System will operate at unacceptable levels of service.

F. The City Council hereby finds and determines that the failure to mitigate growing traffic impacts on the Regional System within Western Riverside County will substantially impair the ability of public safety services (police and fire) to respond. The failure to mitigate impacts on the Regional System will adversely affect the public health, safety and welfare.

G. The City Council further finds and determines that there is a reasonable and rational relationship between the use of the TUMF and the type of development projects on which the fees are imposed because the fees will be used to construct the transportation improvements that are necessary for the safety, health and welfare of the residential and non-residential users of the development projects on which the TUMF will be levied.

H. The City Council further finds and determines that there is a reasonable and rational relationship between the need for the improvements to the Regional System and the type of development projects on which the TUMF is imposed because it will be necessary for the residential and non-residential users of such projects to have access to the Regional System. Such development will benefit from the Regional System improvements and the burden of such development will be mitigated in part by the payment of the TUMF.

I. The City Council further finds and determines that the cost estimates set forth in the Nexus Study are reasonable cost estimates for constructing the Regional System improvements, and that the amount of the TUMF expected to be generated by new development will not exceed the total fair share cost to such development.

J. The fees collected pursuant to this Ordinance shall be used to help pay for the construction and acquisition of the Regional System improvements identified in the Nexus Study. The need for the improvements is related to new development because such development results in additional traffic thus creating the demand for the improvements.

K. By notice duly given and published, the City Council set the time and place for a public hearing on the Nexus Study and the fee proposed thereunder and at least ten days prior to the hearing, the City made the Nexus Study available to the public.

L. At the time and place set for the hearing, the City Council duly considered that data and information provided by the public relative to the cost of the services for which the fees are proposed and all other comments, whether written or oral, submitted prior to the conclusion of the hearing.

M. The City Council hereby adopts the Nexus Study, which Study is attached hereto as Exhibit "B", and incorporates it herein as though set forth in full.
