EXHIBIT “A”

(RESOLUTION NUMBER 1222)

1987 Redevelopment Project – Eminent Domain Program

The provisions of the Redevelopment Plan authorize the use of the power of eminent domain by the Agency to acquire any interest in real property in the Project Area. In eliminating and preventing such conditions of blight, the Agency proposes:

1. To provide or assist in the provision of needed public facilities and improvements in the Project Area, including construction of drainage and sewerage facilities, water distribution facilities, and provision of traffic circulation and street improvements to serve the Project Area;

2. To enhance and expand shopping facilities in Perris by encouraging the development of new commercial uses and rehabilitation of existing commercial uses in conformance with the Perris General Plan and Zoning Ordinance;

3. To upgrade the physical appearance of the Project Area, and thus the community, particularly as viewed from State Highway 215;

4. To encourage the cooperation and participation of property owners, public agencies, and community organizations in the elimination of blighting conditions in the Project Area;

5. To encourage investment in the Project Area by the private sector;

6. To remove economic impediments to land assembly and in-fill development in areas which are not properly subdivided for development;

7. To consolidate parcels as needed to induce new, quality commercial residential or industrial development in the Project Area;

8. To eliminate incompatible, non-conforming land uses from the Project Area;

9. To protect the health and general welfare of low- and moderate-income persons by increasing and improving the community’s supply of housing affordable to these persons;

10. To mitigate potential relocation impacts resulting from changes in Project Area land use from non-conforming and dilapidated uses to development in conformance with the Perris General Plan and Zoning Ordinance;

11. As required by law, to provide replacement housing when dwellings housing low- or moderate-income persons or families are destroyed or removed from the low- or moderate-income housing market;

12. To provide relocation assistance to all displacees in order to mitigate possible hardships due to relocation activities;
13. To promote the development of new and diverse employment opportunities;

14. To provide a procedural and financial mechanism by which the Agency can assist, complement and coordinate public and private development, redevelopment, revitalization and enhancement of the community.

The use of the power of eminent domain is limited by the CRL, by Section 321 of the Redevelopment Plan and by the Agency’s program to acquire real property by eminent domain as set forth in Ordinance No. 1181 approved and adopted by the City Council on February 14, 2006. The applicable limitations are as follows:

1. The Agency shall comply with all applicable laws in acquiring real property by eminent domain.

   b. The building is substandard as determined by the Building Department of the City of Perris after inspection;

   c. The building must be removed in order to eliminate an environmental deficiency, including but not limited to, incompatible land uses and small and irregular lot subdivisions;

   d. The building must be removed to provide land for needed public improvements, including among others, rights-of-way, public safety facilities, public recreational facilities, open space and other public utilities.

4. The Agency is not authorized to use the power of eminent domain to acquire any other Project Area properties outside the East San Jacinto Avenue Sub Area.

7. The Agency is not authorized to use the power of eminent domain to acquire any real property to be retained by an owner, either as a conforming owner or pursuant to a participation agreement, if the owner fully performs under the agreement.

8. The Agency is not authorized to use the power of eminent domain to acquire any real property on which an existing building is to be continued on its present site and in its present form and use without the consent of the owner, unless: (i) such building requires structural alteration, improvement, modernization or rehabilitation; or (ii) the site or lot on which the building is situated requires modification in size, shape, or use; or (iii) it is necessary to impose upon such property any of the standards, restrictions, and controls of the Redevelopment Plan and the owner fails or refuses to participate in said Plan by executing a participation agreement;
