Perris residents can now put waste into their Green cart.

The materials from your green organics container will be transported to CR&R's new Anaerobic Digestion (AD) Facility here in Perris. For a nominal additional monthly fee, our AD facility will convert all of your organic waste (yard and food scraps) into renewable natural gas and a high quality fertilizer. This program will keep all of your city's organic waste out of the landfill.

Businesses can request an Organic Bin for their location by calling 800.826.9677.
